Only think of it for a moment. Here Only think of it for a moment. Here on the northwest coast there are islands sown so thickly that many of thesea passages, though deep enough for a three-decker to swim in are so narrow that one might carily skim his hat across them. There are thousands of these islands—yea, tens of thousands—I don't know just how many, and perhaps no man does. They are all chapes and sizes, and the majority of them are handsomely wooded.
